Atraumatic Occlusion

Edwards Lifesciences offers a complete range of clamps, clamp inserts, spring clips and handleless clamps to meet your needs for atraumatic occlusion.

Edwards

An entire line of atraumatic occlusion products by the company that brought you the Fogarty® catheter

The Edwards Lifesciences complete line of atraumatic occlusion products includes Fogarty Hydragrip clamps, Cosgrove Flex clamps, clamp inserts, spring clips and handleless clamps. Edwards clamps are adaptable to various vessel conditions and procedures through fully interchangeable inserts with a range of resilience and traction.

Fogarty Hydragrip Clamps

- Perform efficiently on either diseased or normal vessels
- Provide adequate traction through replaceable inserts

Fogarty Clamp Inserts

- Available in 33, 61 and 86 mm sizes for a wide range of procedures
- 7 combinations of atraumatic jaw surfaces

Fogarty Spring Clips

- Are designed to provide a consistent degree of tension
- EverClip reduced force spring clip is designed to minimize vessel trauma while maintaining occlusion

Fogarty Handleless Clamps

- A ratchet-type mechanism allows for desired degree of pressure

The spring clips and handleless clamps are radiopaque for visualization under fluoroscopy

Edwards atraumatic occlusion products are not made with natural rubber latex.

Fogarty Hydragrip Clamps

CV 5020	CV 5025	CV 5030	CV 5040	CV 5045	CV 5050	CV 5055
Peripheral Vascular		Thoracic and Gastrointestinal Procedures Aortic and Vena Cava Occlusion		Aortic Crossclamp	Aortic Aneurysms, Pulmonary and GI Procedures	

The Cosgrove Flex Clamps have flexible shafts that bend and contour, yet perform with the reliability of traditional rigid clamps.

Standard Features
- Strong, flexible, reliable shaft constructed of beaded stainless steel
- Enough clamping force for total vessel occlusion without excessive pressure
- Wide jaw opening for a secure grasp of all vessels
- Gap between shaft beads to allow for thorough cleaning
- Familiar ratchet design handle
- Versatility: two models

Cosgrove Flex Clamp
QuickBend Clamp with EverGrip Inserts

Cosgrove QuickBend Clamp

Shorter neck allows shaft to bend closer to the jaw for a tighter bending radius

Cosgrove SlimFit Clamp

Slim jaw profile permits use in narrow incisions
