

Non-adhesive foam dressing

Non-adhesive Foam Dressing - non-adhesive foam dressings for effective absorption of wound exudate from moderately to significantly exuding wounds.

Benefits:

- Reduces pain and the risk of tissue damage when changing dressing
- Flexible and easy to apply, even on areas that are difficult to bandage
- Can be cut to size
- Works under compression
- Breathable and absorbs excess exudate
- Outer layer of PU film provides an effective barrier against exogenous bacteria and helps to create a beneficial moist environment for wound healing
- Comfortable when applied, and gentle on the surrounding skin
- Can remain in place for up to 7 days (depending on the condition of the wound)

Art.No.	Description	Ward/Trsp.box	
60702221	5 x 5 cm	10/200	
60702222	10 x 10 cm	10/200
